Weather

Winter (November–February): Winter in Nagarhole is cool and pleasant, with temperatures generally ranging from 12°C to 28°C. Early mornings and evenings can be chilly, especially during open-jeep safaris. This is a comfortable period for wildlife safaris and birdwatching, with good chances of spotting a variety of resident and migratory birds. Carry warm layers such as a fleece jacket, sweater, and light windbreaker for morning safaris.
Summer (March–May): Summer is hot and dry, with temperatures generally ranging from 22°C to 36°C, and occasionally higher during peak afternoon hours. As natural water sources reduce, wildlife tends to concentrate around remaining waterholes, which can improve opportunities for sightings. Wear light, breathable cotton clothing, and carry a wide-brimmed hat, sunglasses, sunscreen, and drinking water.

Best Season for Wildlife

October to May is ideal for exploring Nagarhole National Park, with pleasant weather and excellent opportunities to spot tigers, leopards, elephants, gaurs and deer.
March to May is particularly rewarding for wildlife sightings as animals gather near water sources.
