Weather

Winter (November–February): Winter brings cool, pleasant days and misty mornings, with temperatures ranging from 11°C to 26°C. The comfortable climate makes it an ideal time for safaris and birdwatching, with good opportunities to spot migratory bird species. Early morning open-air safaris can be quite chilly, so pack warm layers such as a fleece jacket, sweater, and windbreaker.
Summer (March–May): Summer is hot and dry, with temperatures ranging from 24°C to 38°C. As water sources become scarce, wildlife often gathers around waterholes, offering excellent opportunities for animal sightings. Pack light, breathable cotton clothing, a wide-brimmed hat, sunglasses, and high-SPF sunscreen to stay comfortable in the heat and dusty conditions.

Best Season for Wildlife

October to May is ideal for exploring Bandipur National Park, with pleasant weather during the cooler months and improved wildlife visibility as the dry season progresses. March to May can be particularly rewarding for sightings of tigers, elephants, leopards, gaurs and deer near water sources.
