Weather

Winter (November–February): Winter in Bhadra is cool, pleasant and comfortable, with temperatures generally ranging from 12°C to 28°C. Mornings can be misty and chilly, making early safari drives especially refreshing. This is a good period for wildlife safaris, birdwatching and nature photography. Carry warm layers such as a fleece jacket, sweater and light windbreaker for early morning safaris.
Summer (March–May): Summer is warm and relatively dry, with temperatures generally ranging from 22°C to 35°C. As water levels reduce, wildlife may be seen more frequently around water sources and shaded areas, offering good opportunities for sightings. Wear light, breathable cotton clothing and carry a wide-brimmed hat, sunglasses, sunscreen and sufficient drinking water.

Best Season for Wildlife

October to May is ideal for exploring Bhadra Wildlife Sanctuary, with pleasant weather, lush post-monsoon forests and excellent opportunities to spot elephants, tigers, leopards, gaurs and deer. March to May can be particularly rewarding for wildlife sightings as animals frequent water sources.
